Introduction

I am a motivated fresher with an interest in technology and I really want to keep learning new things. I am working on my skills by teaching myself and doing projects. I am getting more and more interested, in cybersecurity and freelancing. I want to use what I know learn from the problems I will face in the world and grow as a professional in a real work environment where I can learn about technology and cybersecurity and freelancing.

Experience

Operating Systems & Servers: Windows Server (2019/2022), Active Directory, Group Policy, DNS, DHCP

Networking: TCP/IP, VPN, VLANs, Routing & Switching, Wi-Fi security testing (lab environments)

Cybersecurity Tools: Nessus, OpenVAS, Gobuster, FFUF, Sherlock, Subfinder

Scripting & Databases: PowerShell automation, SQL queries for reporting and log analysis

Other Skills: Lab setup & virtualization (VMware, VirtualBox), project documentation, security compliance awareness

SELF DEFENSE: 1st Dan in karate kyokushin

Education

BCS (Bachelor of Computer Science in Cybersecurity) <i>Texas College Of Management & IT, Lincoln University</i>	2024 - Present <i>Sifal, Kathmandu</i>
+2(National Examination Board) <i>Golden Future Secondary School</i>	2023 - 2024 <i>Panchkhal, Kavrepalanchok</i>
SEE (Secondary Education Examination) <i>Shree Azad Secondary School</i>	2018 - 2022 <i>Panchkhal, Kavrepalanchok</i>

Projects

Early-stage Startup (Self-initiated) Kathmandu, Nepal | 2025 – Present

- *Conducted market research and developed a prototype SaaS platform.*
- *Practiced Windows Server labs: Active Directory setup, group policies, and network security.*
- *Applied vulnerability scanning tools (Nessus, OpenVAS) in controlled lab environments.*

Academic Project | Windows Server Lab

- *Configured domain controllers and group policies in a simulated enterprise environment.*
- *Designed secure network topology and tested penetration tools.*

Management in karate DOJO

- *Instructor Training*
- *Self-Defense & Confidence Building between junior*
- *Help to Student Progression in real life self defense*

Technical Skills

❖ **Operating Systems & Servers**

- Windows Server (2019/2022) administration
- Active Directory, Group Policy, DNS, DHCP
- Linux (Kali Linux, Ubuntu)

❖ **Networking**

- TCP/IP, VPN, VLANs, Routing & Switching

- Network configuration and troubleshooting
- Wi-Fi security testing (lab environments)

❖ **Cybersecurity Tools**

- Vulnerability Scanning: Nessus, OpenVAS
- Web Enumeration & Fuzzing: Gobuster, FFUF
- Reconnaissance Tools: Subfinder, Sherlock
- Penetration Testing (controlled lab environments)

❖ **Scripting & Databases**

- PowerShell automation
- SQL queries for reporting and log analysis

❖ **Virtualization & Labs**

- VMware, VirtualBox for lab environments
- Security compliance awareness and documentation

❖ **Other:** GitHub, AWS Cloud, Teaching, IOT, WordPress, Graphic Designing

Languages

- Nepali (Native), English (Professional), Hindi (Professional)
